Multi-Angle

-15,0,15,30 Four-degree angle to confirm the most effective charging efficiency. Professional Lighting distribution can keep the same angle while the Solar Panel angle changing.

Patent

Professional Fresnel lens to achieve 20 m and 120 degree detectable area, far more than the competitor

Features

Aircraft Carrier design to enlarge the solar panel and battery. Provide a longer lighting time

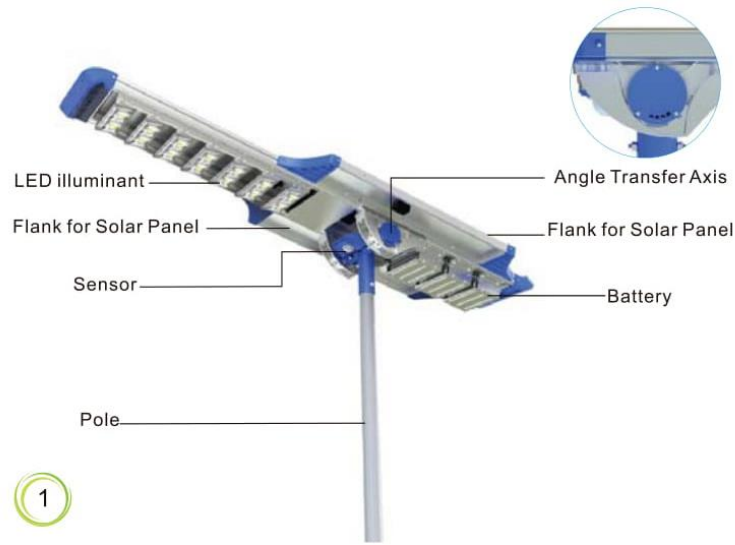

Application

Street, Courtyard, Garden, Park, Roadway, pathway, Parking Lot, Campus, Farm & Ranch, Military Base

TITANS SERIES Remote Control Solar Street Light

Different Angle and High efficiency Charge,
Never Affected by the Installation Position.
